THE STUDENT CODE OF BEHAVIOR AND DISCIPLINE 44-57

EQUAL EDUCATIONAL OPPORTUNITY

The Chester County School District will take steps to assure that lack of English skills will not be a barrier to admission and participation in all educational and vocational programs.

JURISDICTIONAL STATEMENT

This handbook, the ***Student Code of Behavior and Discipline*** and board policies, rules and regulations are in effect while students are on school grounds, school district property or on property within the jurisdiction of the school district; while on school-owned and/or school operated buses or vehicles or chartered buses; while attending or engaged in school activities; and while away from school grounds if the misconduct directly affects the good order, efficient management and welfare of the school district or involves students or staff.

ADMISSION/WITHDRAWAL

Admission Requirements

A student seeking enrollment in the district for the first time must meet all academic, age, immunization, tuition and other eligibility prerequisites for admission as set forth in state law, Board policy and administrative procedures. Students and their parents should contact the high school office for admission requirements.

The district may deny regular school admission to a student who is expelled/suspended from another school district and who subsequently becomes a resident of the district or who applies for admission to the district as a non-resident student.

Withdrawal from school

A student may be withdrawn from school only by a parent. The school requests notice from the parent at least three (3) days in advance, so that records and documents may be prepared. The parent may obtain a withdrawal form from the school office. On the student's last day, the withdrawal form must be presented to each teacher for current grade averages and book clearance; to the librarian to assure a clear library record; to the cafeteria manager for cafeteria clearance; and, finally, to the principal. A copy of the withdrawal form will be given to the student and a copy placed in the student's permanent record.

A student who is 18 or older, who is married or who has been declared by a court to be an emancipated minor may withdraw without parental signature.

Foreign Exchange Students

The school may enroll a maximum of five (5) students from those exchange programs officially recognized by the Board.

Admission of exchange students will be made only at the beginning of the school year. All arrangements for admission must be concluded in the summer prior to the beginning of the school term.

Foreign exchange students admitted to school under an F-1 visa status would be required to pay tuition as required by law and at the rate established by the Board. Exchange students attending school under a J-1 visa will be granted tuition waivers.

ATTENDANCE

College Visits

Seniors are encouraged to visit college campuses on weekends or school holidays. However, if that cannot be arranged, seniors may be excused one (1) day to visit college campuses with the permission of the school counselor and with a note signed by the student's parents or a telephone call from the parents.

Driver's License Revocation

Ten (10) consecutive or fifteen (15) total unexcused absences during any semester may render a student ineligible for promotion to the next grade and/or to receive credit toward graduation, and to retain a driver's permit, or to obtain such if of age.

Any student fifteen (15) years of age or older who becomes academically deficient shall be reported to the Department of Safety for driver's license revocation. A student shall be deemed academically deficient if he/she has not received passing grades in at least three (3) full unit subjects or their equivalency at the end of semester grading.

A copy of the notice sent to the Department of Safety by the attendance teacher or the director of schools or his/her designee shall also be mailed to the student's parent or guardian.

Inclement Weather/ Emergency Closings

In case of severe, inclement weather or mechanical breakdown, the school may be closed or starting time delayed. School closing, delayed starting time, or early dismissal will be announced over area television and radio stations and an automated telephone message will be provided from the Central Office for more current information.

Make-up Work

Students who are absent from school are required to make up work missed in class. This work should be completed approximately in the same amount of time as the time missed in class. It is the student's responsibility to obtain all make-up work from the teacher.

Release of Students from School

A student shall not be permitted to leave the school premises during the school day except for school-related or school-sponsored activities. However, a student may be permitted to leave the school premises if a parent or guardian has made a specific request (via telephone or in person) prior to the dismissal or if a school official notifies a parent or guardian and obtains permission for the release of the student. Every dismissal shall be approved by the principal or person designated by the principal. A parent or guardian's notification of student's need of an early dismissal does not automatically guarantee the late will be excused. When the early dismissal of the student is approved, the student will be required to sign-out stating name, time of leaving, and reason for leaving. If the student returns to school during the same day, the student must sign-in in the office at the time of returning. After five (5) call-ins made by parent or guardian for student's sickness in one semester, a doctor's statement will be required to excuse further early dismissals. Excessive "unexcused" checkouts will warrant disciplinary actions by Principal. The disciplinary actions range from a warning notice to parents or guardian to in- school suspension.

Student Attendance

All students are expected to attend school each day, all day, except in extreme and rare situations. Regular and prompt attendance is one of the requirements of all students for promotion. Each time a student is absent from school there is a loss of opportunity for learning. It shall be left to the judgment of the principal to determine if the absence, tardy, or checkout is excused or unexcused. The school has the responsibility for knowing the whereabouts of every student while school is in session. Frequent tardies, absences, or check-outs may result in disciplinary measures. A parent's permission does not necessarily constitute an excused absence. Students who are absent more than five (5) days in a semester will be required to provide a doctor's statement to receive further excused absences. If a student is absent with three (3) unexcused absences, a written notice will be provided to the student concerning the unexcused absences. When a student is absent with five (5) or more unexcused absences in one semester, the student may be required to appear before a truancy board to explain the absences, which may result in further disciplinary actions.

All absences will be considered unexcused unless it can be identified as one of the following circumstances:

1. Illness to the student.

2. Death or serious illness within the student's immediate family.
3. When the student is officially representing the school in a school sponsored activity.
4. Special and recognized religious holidays regularly observed by persons of their faith
5. Legal court summons not as a result of the student's misconduct
6. Extenuating circumstances excuses

In the event that parents determine that their child needs to be absent for reasons other than those listed above, they may request an excused absence from the Principal. In the event the Principal does not grant the request, it may be appealed to the Superintendent. If the Superintendent denies the request, it may be appealed to the Board of Education at the next regularly scheduled meeting. All requests for "extenuating circumstances excuses" should be made a week (five school days) in advance of the time of the planned absence in order to allow for the appeals process. The Principal, Superintendent, or the Board shall not grant excused absences under this section retroactively. A student is considered present for the day if the student is in attendance for the majority of the day or until 11:30am.

In the event of a student's absence, the parent or guardian shall be required to contact the school of the student explaining the reason for each absence. If the absence is a circumstance considered as "excused", the call explaining the circumstance by the parent or guardian must be made as soon as possible. An excessive delay in the initial contact may require approval from Principal to recognize absence as "excused". A doctor's statement will be required to recognize an absence as "excused" if the student has five (5) or more excused absences in a semester. The attendance supervisor will follow up on the absence as deemed necessary (phone calls, home visits, parent-teacher conferences, etc.) In the State of Tennessee, a child is under the Compulsory Attendance Law from the student's sixth birthday through the seventeenth birthday. Amended 9-17-98

In the event of a student's late arrival to school, the student must report to the office to sign in. For the administration to consider the student's late arrival as excused, there must be a notification provided by parent or guardian stating the reason for the late arrival. As described with the attendance policy, excusing a late will be determined based upon the circumstances provided previously. A parent or guardian's notification of student's late arrival does not automatically guarantee the late will be excused. After five (5) call-ins made by parent or guardian for student's sickness in one semester, a doctor's statement will be required to excuse a late arrival.

An added incentive for the students to achieve perfect attendance is the option of exempting semester and final exams. Students may exempt one (1) semester exam subject to the following conditions:

1. At the time of the exam, the student has no unexcused absences from the school or in the class in which the student wishes to exempt the exam;
2. At the time of the exam, the student has no more than two (2) excused absences from school or in the class in which the student wishes to exempt the exam;
3. The student must have an average of 70 or higher in the specific class.

The absences would be cumulative for the entire school year. Three (3) excused absences or one (1) unexcused absence at any point would eliminate the student from exempting future semester exams during that school year.

Another optional exam exemption policy available is that students may exempt the semester exam for each class in which they have a semester average of an "A", regardless of the number of days absent for excused reasons.

Semester exams for non-End Of Course subjects will count as sixteen (16) percent of the semester grade. The total average of each nine-week grade will count as eighty-four (84) percent of the semester average. For End Of Course subjects, the semester exam counts twenty-five (25) percent of the second semester average and each nine-week grade will count as seventy-five (75) percent of the second semester average.

Punctuality

Students are responsible for being to school and class on time. If school transportation is running late, the school office and teachers will be notified. Students coming to school late must immediately come to the office and get a late slip before going to class.

Students who are tardy to class unexcused will be disciplined according to the following policy.

- 1st through 3rd tardy- no penalty
- 4th tardy- detention (1 hour after-school)
- 5th through 7th tardy- detention (2 hours after-school)
- 8+ tardies - ISS for 2 days and parent conference

The following steps apply to each nine-week period during the school year.

STUDENT WELFARE

Accident Insurance

The principal shall ensure that each student, before participating in interscholastic athletics, either purchases the insurance policy offered or presents a statement signed by the parent(s) who assures the school that the parent(s) has personal insurance or is willing to accept all financial responsibilities related to participation and travel. Every accident in the school building, on the school grounds, at practice sessions, or at any athletic event sponsored by the school must be reported immediately to the school personnel responsible.

Communicable Diseases/ Conditions

To protect children from contagious illnesses, students infected with certain diseases are not allowed to come to school while contagious. Parents of a student with a communicable or contagious disease should telephone the school nurse or principal so that other students who may have been exposed to the disease can be alerted. These diseases include:

Amebiasis	Meningitis, Bacterial
Campylobacteriosis	Mumps
Chickenpox	Pinkeye (Conjunctivitis)
Common cold with fever	Ringworm of the scalp
Fifth disease	Rubella (German Measles)
(Erythema Infectiosum)	
Gastroenteritis, Viral	Salmonellosis
Giardiasis	Typhoid fever
Head lice (Pediculosis)	Scabies
Hepatitis, Viral A	Shigellosis
Impetigo	Streptococcal disease, invasive
Infectious mononucleosis	Tuberculosis, Pulmonary

COUNSELING

Academic Counseling

Students and parents are encouraged to talk with a school counselor, teacher, or principal to learn about course offerings, the graduation requirements of various programs, and early graduation procedures. Each spring, students in grades eight (8)

through eleven (11) will be provided information on anticipated course offerings for the next year and other information that will help them make the most of academic and vocational opportunities.

Students who are interested in attending a college, university, or training school or pursuing some other type of advanced education should work closely with their counselor so that they take the high school courses that best prepare them. The counselor can also provide information about entrance examinations and deadlines for application, as well as information about automatic admission to state colleges and universities, financial aid, housing, and scholarships.

Students are ultimately responsible for knowing/seeking information about academic graduation requirements.

Personal Counseling

The school counselor is available to assist students with a wide range of personal concerns, including such areas as social, family, academic and emotional issues, or drug, alcohol or tobacco dependency. The counselor may also make available information about community resources to address these concerns.

Counseling is voluntary and students will not be required to disclose personal information.

Please note: The school will not conduct a psychological examination, test, or treatment without first obtaining the parent's written consent.

DRUG, ALCOHOL AND TOBACCO PREVENTION PROGRAM

Drug and Alcohol Policy

Neither alcoholic beverages nor illegal drugs shall be allowed on school-owned property, school buses, or at any school-sponsored activities. Any student in possession of alcoholic beverages during any school-sponsored function is subject to disciplinary measures. Discipline procedure required by state law for a student in possession of illegal drugs require no less than one (1) calendar year expulsion from school. This policy is covered in more detail in our ***Code of Behavior and Discipline***.

Tobacco Policy

All possession and uses of tobacco and tobacco products, including smokeless tobacco, are prohibited in all of the school district's buildings. The use of tobacco or tobacco products, including smokeless tobacco, will be prohibited in all vehicles, owned, leased, or operated by the district. This policy is covered in detail in the ***Code***

of Behavior and Discipline. Principals are required to issue a juvenile citation to student violators under 18 years of age.

Emergency Drills

Fire, tornado, earthquake, and other emergency drills are an important safety precaution. It is essential that when the first signal is given, everyone obey practiced procedures, promptly. The drill is to remain in effect until the "all clear" signal is given.

Students are expected to remain quiet and orderly during a drill or an emergency. Students who pull the fire alarm or call in false alarms, in addition to being disciplined under the school district's ***Student Code of Behavior and Discipline*** may be reported to law enforcement officials.

Emergency Medical Treatment and Information

If a student has a medical emergency at school or a school-related activity when the parent cannot be reached, the school must have written parental consent to obtain emergency medical treatment and information about allergies to medications, etc. Therefore, parents are asked each year to complete an emergency care consent form. Each year, parents or legal guardians should keep emergency care information up-to-date (name of doctor, emergency telephone numbers, allergies, etc.). Please contact the school office to update any information.

Harassment

The Chester County Board of Education is committed to safeguarding the right of all students and employees within the school system to learn and work in an environment that is free from all forms of harassment and/or sexual harassment.

It is the policy of the Chester County school system to maintain learning and working environments that are free from harassment of any type. The school system prohibits any form of sexual harassment or harassment based upon age, religion, disability or race/national origin.

It shall be a violation of this policy for any student or employee of the school system to harass a student or an employee through conduct or communication in any form as defined by the policy.

Title VI of the Civil Rights Act of 1964, Title IX of the Education amendments of 1972 and Section 504 of the Rehabilitation Act of 1973 require school districts to have officially adopted policy statements of nondiscrimination on the basis of sex, disability, national origin and race.

Any person who believes he or she has been the victim of harassment by a student or an employee of the school system, or any third person with knowledge or belief of conduct which may constitute harassment should report the alleged acts immediately to any appropriate school system official which will be the School Principal or Director of Student and Employee Relations and Title IX Coordinator.

Submission of a complaint or report of harassment will not affect the reporting individual's future employment, grades, or work assignments.

The school system will respect the confidentiality of the complainant and the individual(s) against whom the complaint is filed as much as possible, consistent with the school system's legal obligations and the necessity to investigate allegations of harassment and take disciplinary action when the conduct has occurred.

Immunization

No students entering school, including those entering kindergarten or first grade, those from out-of-state and those from nonpublic schools, will be permitted to enroll (or attend) without proof of required immunizations. It is the responsibility of the parents or guardians to have their children immunized and to provide such proof to the principal of the school that the student is to attend. All certificates of immunization shall be on forms furnished by the department of health.

If a student's religious beliefs conflict with the requirement that the student be immunized, the student must present a statement signed by the student (or by the parent, if the student is a minor) stating that immunization conflicts with the beliefs and practices of a recognized church or religious denomination of which the student is an adherent or member. This statement must be renewed yearly.

If a student should not be immunized for medical reasons, the student or parent must present a certificate signed by a U.S. licensed physician stating that, in the doctor's opinion, the immunization required would be harmful to the health and well-being of the student or any member of the student's family or household. This certificate must be renewed yearly unless the physician specifies a lifelong condition.

Medicine at School

Medication shall be administered only when the student's health requires that it be given during school hours. It is the parent's responsibility to bring this medication to school, give it to the school designee, and remove any unused medication when treatment is completed.

- All prescription medication must be brought to school in the original container. The pharmacy label must include the following information:
 - Name of student

- Prescription Number
- Name of medication and dosage
- Administration route or other directions
- Date
- Licensed prescriber's name
- Pharmacy name, address and telephone number
- All non-prescription medication must be brought to school in the original manufacturer's labeled container with the ingredients listed and the child's name affixed to the container.
- Medication will be administered in accordance with the dosage requirements on the label.
- No more than one month's supply of any medication should be brought to school.

Physical Examinations

Prior to entering school for the first time, each student shall have a complete physical examination. This applies to kindergarten, first grade and other students for whom there is no health record.

Students participating in athletics are required to provide a school district physical examination form signed by the student's doctor stating the student is physically fit to perform in athletics prior to participation. Failure to provide proof of a physical examination makes the student ineligible.

Student Illness or Injury at School

A student who becomes ill or is injured at school shall notify his or her teacher or another employee as soon as possible. In the case of a serious illness or injury, the school shall attempt to notify the parents according to the information on the emergency form. If the student is too ill to remain in school, the student will be released to the student's parents or, with parental permission, to another person directed by the parents.

In the event of a medical emergency, employees may administer emergency or minor first aid, as appropriate and, if necessary, emergency medical personnel will be contacted. The school will attempt to notify the parents as soon as possible.

STUDENT ACTIVITIES

Assemblies

At all times, the students' behavior should be refined and courteous. An indication of the cultural level of the school is the conduct of its student body at an assembly.

Whether guests are present or not, each student is personally responsible for the impression made by the school as a whole. Unacceptable conduct includes whistling, uncalled for clapping, boisterousness, talking during the program or being disruptive to the intent of the assembly program. All students and faculty will be required to attend unless instructed otherwise. Students will be assigned a section in the gym for seating according to their grade level or classroom assignment. Visitors or guests to the assembly must be approved before the assembly by the administration. Misbehavior by individuals or groups will not be tolerated and may result in disciplinary measures.

Field Trips

In certain classes, field trips and excursions are authorized and may be taken as an extension of the classroom to contribute to the achievement of the educational goals of the school district. If a field trip is required for a course, students are expected to attend the field trip. Absences from other classes or school activities due to attendance on field trips and excursions are considered present at school or excused absences.

While on field trips, students are guests and considered representatives of the school district. Students must treat employees, chaperones and guides with respect and courtesy.

A student may be required to submit a permission form, signed and dated by the parent, in order to participate in a field trip. Field trips that occur during non-school days may have required fees that are the responsibility of the student. A fee waiver process is available for students unable to afford the fee. Students/Parents should contact the central office for more information.

Fund-Raising

Student clubs or classes, outside organizations, and/or parent groups occasionally may be permitted to conduct fund-raising drives for approved school purposes. An application for permission must be made to the principal by the designated date of the current school year. Fundraiser requests must be submitted by August 19, 2011 for approval for the 2011-12 school year.

Except as approved by the administration, fund-raising by any club or organization is not permitted on school property.

All funds raised or collected by or for school-approved student groups will be receipted, deposited and accounted for in accordance with Tennessee law and applicable district policy and procedures. All such funds will be expended for the purpose of supporting the school's extracurricular activities program. The principal is responsible for administering student activity funds. The student body treasurer

serves as the student government representative in administration of student activity funds.

School Sponsored Student Organizations

Every student is encouraged to participate in extracurricular student organizations. School-sponsored student organizations are those, which are recognized by the school district and Board. School-sponsored student organizations include:

4-H, HOSA, Beta Club, Mu Alpha Theta, Bookbackers, National Honors Society (NHS), Future Business Leaders of America (FBLA), SkillsUSA, Community Service Club, Drama Club, Spanish Honors Society, Eagle's Eye, Student Council, Family, Career, & Community Leaders of America (FCCLA), Future Teachers of America (FTA), Fellowship of Christian Athletes (FCA), Tennessee Career Association (TCA), Future Farmers of America (FFA).

Participation in school-sponsored organizations is a privilege. Individual sponsors or coaches may impose rules in addition to those contained in this handbook. The privilege of participation may be suspended or canceled for violating club or sponsors' rules as well as for violation of school district policies.

Student Council

The Student Council provides for student activities, serves as a training experience for both leaders and followers, promotes the common good, gives students a share in the management of the school, develops high ideals of personal conduct, acts as a clearing house for student activities, seeks to interest students in school affairs and helps solve problems that may arise. Members of the council are the students' representatives and have direct access to the school administration as a collective group.

Student Social Events

Events designed to enhance social development may be conducted by schools but must not interfere with the scholastic program in any school.

Student organizations may sponsor social events, which are planned under the guidance of club sponsors or school administrators, scheduled well in advance, and serve to complement the curricular program. Minimal admission fees may be charged to defray costs.

The principal shall approve social events, scheduled for out-of-school hours. The superintendent and/or the Board must approve activities scheduled outside of the system.

Use of School District Facilities by Students

Certain areas of the school will be accessible to students before and after school for specific purposes. Students are required to remain in the area where their activity is scheduled to take place.

The cafeteria is open to students before school beginning at 7:00 a.m. All students who arrive to school before 7:45 a.m. will report to the cafeteria until dismissal at 7:45 a.m. to report to first period class.

Unless the teacher or sponsor overseeing the activity gives permission, a student will not be permitted to go to another area of the building or campus.

After dismissal of school in the afternoon, and unless involved in an activity under the supervision of a teacher, students must leave campus immediately.

STUDENT RECORDS

Access/ Release of Student Records

By law, both parents, whether married, separated or divorced, have access to the records of a student who is under 18 unless the district is provided evidence that there is a court order, state statute or legally binding document relating to such matters as divorce, separation or custody that specifically revokes these rights.

Parents of a minor, or an eligible student (if 18 or older), may inspect and review education records during regular district hours.

Education Records

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records.

These rights are outlined below:

1. The right to inspect and review the student's education records within forty-five (45) days of the day the school receives a request for access. Parents or eligible students should submit to the school principal or appropriate school official a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask Chester County School District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part to the record they want changed, and specify why it is inaccurate or misleading. If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for the amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education record, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board; a person or company with whom the District has contracted to perform a special task (such as attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review and education record in order to fulfill his or her professional responsibility. Upon request, the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.
4. The parent/student has a right to file a complaint with the U.S. Department of Education concerning alleged failures by Chester County School District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

*Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue S.W.
Washington, D.C. 20202-4605*

STUDENT SCHOLASTIC ACHIEVEMENT

Awards/ Honor Roll

Students who earn at least a B average in each class per nine-week grading period are included in the honor roll. A list of students who are on the honor rolls are published each nine-week period in the local newspaper and posted in the main school lobby.

Class Ranking

Class ranking is determined each semester grading period and is based upon a 100-point scale. Senior class ranking is based upon three and one half semesters of course grades and determines the top ten-percent that includes the salutatorian and valedictorian.

The school system also recognizes the top five academic students of each grade and the top ten percent seniors with an academic banquet and awards.

Correspondence Courses

High school students may earn, through correspondence, a maximum of three (3) units of academic credit to be applied toward graduation requirements. Only two (2) units may be earned during any one (1) school year. Only courses offered by agencies and institutions recognized by the Board will be accepted. The express approval of the principal/designee shall be obtained before the course is taken. The principal/designee and the student will agree on a reasonable date for completion of the correspondence course(s). The student shall not be allowed credit if the course is not completed by the agreed date. The school must receive an official record of the

final grade before a diploma may be issued to the student. Under ordinary circumstances, students or their parents/guardians shall pay for approved correspondence courses the student chooses to take.

Computer Resources

To prepare students for an increasingly computerized society, the district has made a substantial investment in computer technology for instructional purposes. Use of these resources is restricted to students working under a teacher's supervision and for approved purposes only. The student and his/her parents will be asked to sign a user agreement (separate from this handbook) regarding the use of these resources; violations of this agreement may result in withdrawal of privileges and other disciplinary action

Students and parents should be aware that electronic communications —e-mail— using district computers are not private and may be monitored by district staff.

In addition to the disciplinary actions outlined in the ***Student Code of Behavior and Discipline***, discipline may include the loss of class credit.

(See ***Student Code of Behavior and Discipline*** for a complete list of school rules and behavioral expectations)

In order for students to take advantage of available learning opportunities and to be productive members of our campus community, each student is expected to:

- Demonstrate courtesy--even when others do not.

A student who violates the ***Student Code of Behavior and Discipline*** may be subject to a spectrum of disciplinary action, including, but not limited to, detention, suspension, expulsion, loss of awards and honors and/or referral to law enforcement officials.

The district's disciplinary options include using one or more discipline management techniques including counseling by teachers, counselors and administrators, detention, suspension, expulsion, loss of driving privileges and loss of right to apply for driving privileges, loss of privileges, honors and awards and removal to an alternative education program. Disciplinary measures are applied depending on the nature of the offense. The age and past pattern of behavior of a student will be considered in determining appropriate disciplinary action.

In addition, when a student commits alcohol and/or tobacco-related offenses or any other criminal act, he/she may also be referred to law enforcement officials. Violations of the district's weapons/drug policy, as required by law, shall be reported to law enforcement.

Each student has a right to individually, voluntarily, and silently pray or meditate in school in a manner that does not disrupt instructional activities of the school. The school will not require, encourage, or coerce a student to engage in or to refrain from such prayer or meditation during any school activity.

Protection of Student Rights

No student will be required to participate without parental consent in any survey, analysis, or evaluation--funded in whole or in part by the U.S. Department of Education--that concerns:

State-approved textbooks are provided free of charge for each subject or class. Books must be treated with care. A student who is issued a damaged book should report the damage to the teacher. Any student failing to return a book issued by the school loses the right to free textbooks until the book is returned or paid for by the student or family responsible. However, a student will be provided textbooks for use at school during the school day.

Vandalism

The taxpayers of the community have made a sustained financial commitment for the construction and upkeep of school facilities. To ensure that school facilities can serve those for whom they are intended--both this year and in the coming years--littering, defacing, or damaging school property is not tolerated. Students will be required to pay for damages they cause and will be subject to disciplinary consequences in accordance with the ***Student Code of Behavior and Discipline***.

Videotaping of Students

For safety purposes, video/audio equipment will be used to monitor student behavior on buses and in common areas on campus. Students will not be told when the equipment is being used. Students have no expectation of privacy on the school bus or in common areas of the school.

The district shall comply with all applicable state and federal laws related to video recordings when such recordings are considered for retention as part of the student's behavioral record as determined by the district and in accordance with the law.

PARENTAL INVOLVEMENT

Parent Involvement, Responsibilities, and Rights

The Chester County School District believes that the best educational result for each student occurs when all three partners are doing their best: the district staff, the

student's parent, and the student. Such a partnership requires trust and much communication between home and school. To strengthen this partnership, every parent is urged to:

- Encourage his or her child to put a high priority on education and commit to making the most of the educational opportunities the school provides.
- Review the information in the student handbook (including the ***Student Code of Behavior and Discipline*** with his or her child and sign and return the acknowledgment form(s). A parent with questions is encouraged to contact a school administrator.
- Become familiar with all of the child's school activities and with the academic programs, including special programs, offered in the district. Discuss with the counselor or principal any questions, such as concerns about placement, assignment, or early graduation, and the options available to the child. Monitor the child's academic progress and contact teachers as needed.
- Attend scheduled conferences and request additional conferences as needed. To schedule a telephone or in-person conference with a teacher, counselor, or principal, call the school office at (731) 989-8125 for an appointment. A teacher will usually arrange to return the call or meet with the parent during his or her planning period or at a mutually convenient time before or after school. A person who has access to the Internet may contact any teacher or administrator via e-mail using the high school website: <http://www.chestercountyschools.org/highschool>.
- Exercise the right to review teaching materials, textbooks, and other aids, and to examine tests that have been administered to his or her child.
- Review the child's student records when needed. A parent may review records, files, documents and other materials that contain information directly related to the student.
- Become a school volunteer. For further information, contact the principal.
- Participate in campus parent organizations. Parents have the opportunity to support and be involved in various school activities, either as leaders or in supporting roles. Parent organizations include: Band Boosters, Diamond Club, Quarterback Club, and Rebounders.
- Offer to serve as a parent representative on the District-level or campus-level planning committees formulating educational goals and plans to improve student achievement. For further information, contact the principal.
- Attend School Board meetings to learn more about district operations, including the procedure for addressing the board when appropriate.

STUDENT/ PARENT COMPLAINTS

District Personnel Complaints

A student or parent who has a complaint concerning a classroom/teacher issue should first bring the matter to the appropriate teacher. If the outcome is not satisfactory, a conference with the principal can be requested following the conference with the teacher. If the outcome of this conference is not satisfactory, the student or parent may file a written, signed complaint with the superintendent or designee within ten (10) calendar days that will investigate the complaint and render a decision. If the complainant is dissatisfied with the decision of the superintendent, he/she may appeal to the Board by filing a request in writing with the superintendent within five (5) calendar days following receipt of the superintendent's decision. The superintendent will provide the complainant with necessary Board appeal procedures. The Board shall, within thirty (30) days from the date the appeal was received, review the investigation and the actions of the superintendent and may support, amend, or overturn the actions based upon review and report their decision in writing to the complainant. Board decisions are final.

Discrimination based upon Sexual Complaints

A student and/or parent with a complaint regarding possible discrimination of a student on the basis of sex should contact the Title VI and Title IX Coordinator at the central office.

Instructional Material Complaints

Complaints by students or parents about instructional materials should be directed to the principal and provided in writing and signed by the student and/or parent/guardian. A reconsideration committee, comprised in accordance with Board policy, will review the material and forward a recommendation to the superintendent for appropriate action and notification to the complainant. A copy of the committee's recommendation and justification will be forwarded to the complainant together with the superintendent's written decision. The complainant may appeal the superintendent's decision to the Board, whose decision will be final.

Students with Disability Complaints

A complaint or concern regarding the identification, evaluation or placement of a student with disabilities or the accessibility of the district's services, activities or programs to a student, should be directed to the special education director.

Students with Harassment Complaints

Building principals, the compliance officer and the superintendent have responsibility for investigations concerning harassment. All complaints and other reported incidents

shall be investigated. The investigator shall be a neutral party having had no involvement in the complaint presented.

Grievance Procedure

The Chester County Board of Education gives assurance that the local educational agency will administer each program covered by the Title VI, Title IX, and Section 504 HEW Form 641 application in accordance with all applicable statutes, regulations, program plans, and applications and that no student, employee, or other person will be discriminated against on the basis of race, color, creed, national origin, sex, or handicapping condition.

In attempting to solve our grievances, we will follow a formal grievance procedure. The Chester County Board of Education will follow these basic steps when a grievance is lodged.

Step I. Building Level
Authority: Principal of Schools

When a student or any employee of a given school has a grievance, it should be reported to the principal and grievant will work together in trying to resolve all grievances.

Step II. Central Administrative
Authority: Superintendent

If the principal and grievant fail to resolve the grievance, it will be referred to the Superintendent.

Step III. Grievance Level
Authority: The Board of Education

If the grievance failed to be resolved as indicated in Step II, then the grievant is to appear before the Board of Education and state the grievance for their consideration and action.

Step IV. State Department Grievance Specialist

This is to be the final step in our grievance procedures. It is our intention to resolve grievances at least by the time it reaches Step III and acted upon by the Board of Education.

MISCELLANEOUS PROVISIONS

Body Piercing

A student shall not use body piercing to distract unreasonably the attention of other students, cause a safety hazard to themselves, or otherwise to cause disruption or interference with the operation of the school. The Principal or other duly authorized school official shall determine whether any particular mode of body piercing results in distracting unreasonably the attention of other students, causes a safety hazard to themselves or otherwise to cause disruption or interference with the operation of the school. Currently, visible displays of body piercing are only acceptable with the ear. No piercing of any other body part can be displayed. OVERVIEW OF THE STUDENT CODE OF BEHAVIOR AND DISCIPLINE

One of the more important lessons education should teach is discipline. While it does not appear as a subject, it underlines the whole educational structure. The training develops character, self-control, orderliness, and efficiency. It is the key to good conduct and proper consideration for other people. Effective discipline has a direct influence upon the freedom of the student body to engage in many rewarding and memorable school activities outside of the classroom.

Chester County High School promotes a program that reinforces right behavior among the staff and students. The program is called, "Dare to Soar" and was established to recognize students and staff who go above and beyond the call to benefit others. The term, "Soar", represents the acrostic, "serving others, achieving respect." For students to truly experience the best that our school has to offer, students are encouraged to make this motto their mindset each and every day. Our school and community support this program and offer incentives throughout the school year to show the support.

With an understanding of the purposes of discipline in a school, students may form a correct attitude toward it, and not only do their part in making the school an effective place of learning, but develop the habit of self-restraint which will make them better, more productive citizens. All teachers have the responsibility and authority to promote effective discipline at any time on school property and at any school-sponsored activity. Students who refuse to obey any teacher or who are disrespectful to any teacher will be disciplined appropriately. A comprehensive and specific outline of expected behaviors and disciplinary measures are found in the Code of Behavior and Discipline. The following is an overview of the rules addressed in the Code of Behavior and Discipline and the levels of disciplinary actions taken with each rule. Any student, who is suspected of violating a rule of the disciplinary code, may be given a written referral of the violation by a school representative and referred to the principal. Students, as required by procedural due process, will be given the opportunity to address the charges raised against them and present their side of the story. If the violation is determined true, the student will be made aware of the disciplinary measures that will be assigned in writing and the parents/ guardians will be notified by phone call or by letter. If necessary, appropriate law officials will also be notified.

It is the parents’ as well as the school’s responsibility to promote the highest level of student behavior in all areas, including proper dress. Students will avoid disruptive extremes and dress in good taste and in a manner that will do honor to the school and themselves. More specific guidelines appropriate for each level of school may be developed. Principals, faculty members, and students shall be involved in the development of each appropriate set of guidelines. The Chester County High School has developed a specific dress code policy revised May 8, 2008. If attire is unclean, unsafe, or disruptive to the educational process, students will be subject to discipline procedures.

- 2nd Offense – Required to change clothes, notice of noncompliance, ISS for 1 day, and parent conference requested
- 3rd Offense – Parent conference requested, change clothes, ISS for 2 days, and notice of noncompliance

- Simple
- Appropriate
- Readily available
- Inexpensive

Rationale for Change

The Chester County School System has the responsibility to enhance the educational focus, provide a safe and secure school, and establish an orderly learning environment. It is also our belief that by teaching students a proper and professional standard of dress it will aid our students in having a greater opportunity for success upon exiting our schools as well as having a positive effect upon the student’s self esteem. In addition, standard dress will enable school personnel to easily recognize outside intruders and deter gang affiliation and activity. Changing fads and trends put increasing pressure on parents, students, and staff as well as deter from the educational mission of the schools.

The Manual on School Uniforms published by the U.S. Department of Education states the following as potential benefits of standard dress.

Promoting school safety

- Easily identify intruders in school
- Decrease violence and theft
- Minimize overt symbols of gang activity

Improving discipline

A standard dress policy alone will not solve all the problems of school discipline, but it can be one positive contributing factor to discipline and safety.

(TN State Board of Education-Uniform Clothing for Public School Students #4.203)

Enhancing the learning environment

- Help students concentrate on their work
- Instill a sense of school spirit, social pride, and social acceptance
- Aid students in resisting peer pressure
- Test scores increase due to students being more focused
- Reduce classroom distractions

SPECIFIC FORMS OF DISCIPLINARY ACTIONS

Alternative School (AS)

Students who violate the Discipline Code and school rules may be assigned to the alternative school for a definite period of time. Recommendations for students to be assigned to alternative school are made by the administration to the Disciplinary Hearing Authority for approval or denial.

Before or After School Detention (DET)

Detention is a punishment for tardies and other minor school discipline. Students and parents/guardians will be notified in advance to allow them to arrange for the students to attend. Students assigned to detention will be expected to attend or be subject to other disciplinary actions including suspension. Being late to detention is the same as missing the detention. If a student has detention and does not attend, then the student will be assigned to a longer detention session or in-school suspension. If a student is expelled from detention for inappropriate behavior, the student will be suspended out of school. The only excuses for missing detention are illness of the student and death in the immediate family. Any other reason for absence must be approved by the Principal or Assistant Principal. Student illness will require a doctor statement to excuse the absence.

Suspensions (OSS and ISS)

Students suspended from school shall not be allowed to attend or participate in any school activity during the suspension. Students may be assigned in-school suspension for disciplinary reasons. They may make up missed work without penalty; however, they will be isolated from the student body during the entire suspension. Students assigned in-school suspension may attend or participate in school activities during this type of suspension. Students suspended from riding the bus have the privilege of attending school. In such cases parents have the responsibility by law to transport their children to school or arrange for transportation. Absence from school in such cases will be treated as any other absence.

Zero Tolerance Policy

State law requires a mandatory disciplinary measure of expulsion of one (1) calendar year from the student's current educational setting for the following:

1. Possession of a firearm on school property or at any school-sponsored function. The term "firearm" represents any weapon that includes any explosive or incendiary device or anything capable of expelling a projectile by the action of an explosion.
2. Battery on an employee of the school system. "Battery" would be any unlawful beating or other wrongful physical violence inflicted on a human being without consent.

3. Possession of a drug including any controlled substance or legend drug. Drugs identified in the Zero Tolerance Policy as controlled substances and/or legend drugs include but are not limited to: amphetamine/ methamphetamine, marijuana, cocaine, heroin, or illegally-used prescription.

Tennessee Department of Education

Family Educational Rights and Privacy Act (FERPA)
Annual Notice for Disclosure of School Directory Information

Dear Parent/Guardian:

The Family Educational Rights and Privacy Act (FERPA) is a federal law that requires the school district, with certain exceptions, to obtain your written consent prior to the disclosure of personally identifiable information from your child's educational records. However, the school may disclose some student information without written consent when the information is designated, "Directory Information," unless you have advised the district to the contrary in accordance with district policies.

The primary use for Directory information by the district is to include this type of information in certain school publications. It is generally not considered harmful or an invasion of privacy if released. Examples of school publications are:

- A playbill or program, showing your child's role in a drama or music production
- the annual yearbook
- honor roll or other recognition lists published at school or in newspapers
- graduation programs
- sports statistics listed in programs, such as football, which may include height and weight of team members
- school or district websites

Directory Information can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to:

- other schools the student is seeking to attend (transcripts, etc.)
- class ring manufacturers
- state or federal authorities auditing, evaluating programs or enforcing state or federal laws
- a court by order of a subpoena

The Chester County School District has designated the following as Directory Information:

- student name, address, telephone, email address
- degrees, honors, and awards received
- most recent educational agency or institution attended
- participation in school-sponsored activities and sports
- weight and height of members of athletic teams
- major field of study
- dates of attendance

- photograph
- date and place of birth
- grade level

Two federal laws require school districts that receive assistance under the *No Child Left Behind Act of 2001* to provide military recruiters, upon request, with three Directory Information categories- names, addresses, and telephone listings- unless parents have notified the district that they do not want their child's information disclosed without their prior written consent.

If you do not want the district to disclose Directory Information about your child without your prior written consent, you must notify the district in writing by **September 1**. Please complete the lower portion of this form and return the **entire** form to your child's school if you **do not** want your child's directory information disclosed.

Thank you for your consideration in this matter.
